Floorsqueegees

24224
- 21st Century Powrwave® floor squeegee. Powrwave® is the most effective advancement in wet conditions through its unique "fluid directional control." This lightweight, 24" gated squeegee moves as much fluid as a 36" curved squeegee. The directional gates make it 40% more effective than any other squeegee. The squeegee blade is firmly anchored between extra-strong plastic plates. Reversible squeegee rubber provides twice the life and use of a single-edge squeegee. Use Harper 248HAS handle and 81 brace to ensure distribution of load and shock.
- Patented design.

Blade: rubber, 1/4" x thick x 3 1/2" wide

24" – #24224

Also available assembled with 1 1/8" x 60" wood handle and steel handle brace. Harper Heavy Duty® packaging with UPC for retail.
